

WILD AND FREE ASSIGNMENT

1. Describe how you think a dolphin that lives in the ocean spends its time.
2. Dolphins have evolved over millions of years to be perfectly adapted to their ocean habitat. What can you see in these dolphins that makes them able to live in the ocean so successfully?
3. Dolphins are sometimes captured and removed from the ocean and separated from their families. Why do you think humans would capture dolphins?
4. What do you think are some benefits of leaving dolphins in the ocean?
